

MAPE 2011 Call For Papers

The 4th IEEE International Symposium on Microwave, Antenna, Propagation, and EMC Technologies for Wireless Communications

Sponsor :IEEE Beijing Section
Beijing Jiaotong University
November 1-3,2011 Beijing,China
<http://mape.emclab-bjtu.com>

Technical Co-sponsors
IEEE ComSoc, IEEE AP-S,
IEEE ED-S, IEEE EMC-S,
IEEE MTT-S, IEEE SP-S,
IEEE Region 10
Science and Technology on
Electromagnetic Compatibility
Laboratory

Conference Co-chairs
Prof. W. Ross Stone, USA
Prof. Zong Sha, China
International Advisory
Committee

Prof. Shanghe Liu, China
Prof. Susan Hagness, Madison,
USA

Prof. Cynthia Furse, USA
Prof. Constantine Balanis, USA
Prof. Hisamatsu Nakano, Japan
Prof. Koichi Ito, Japan
Prof. Linchang Zhang, China
Prof. Joshua Le-Wei Li,
Singapore

Dr. Peter de Maagt, the
Netherlands

Dr. Trevor S. Bird, Australia

Prof. Weng Cho Chew, USA

Prof. Roberto Graglia, Italy

Prof. P. L. E. Uslenghi, USA

Prof. Yahia Antar, Royal Canada

Prof. Richard Ziolkowski, USA

Prof. Nader Engheta, USA

Dr. Phil Wilkinson, Australia

Prof. Tapan Sarkar, Italy

Prof. Douglas Werner, USA

Prof. Ping Werner, USA

Prof. G. Pelosi, Italy

Prof. Tatsuo Itoh, USA

Prof. Jennifer Bernhard, USA

Prof. Makoto Ando, Tokyo Japan

Prof. Juan Mosig, Switzerland

Prof. Kwai Man Luk, Hong Kong

Prof. Stefano Maci, Italy

Prof. Werner Wiesbeck,
Germany

Prof. Jin-Fa Lee, USA

Technical Program Committee

Co-Chairs:

Prof. Yinghong Wen, China

Prof. Junhong Wang, China

Prof. Ben Allen, UK

Secretary: Dr. Jian Wang, China

Organizing Committee

Chair: Prof. Mengqi Zhou, China

Secretary: Ms. Jing Yu, China

THEME

The Symposium will be held in celebration of the information era milestone. The aim of the Symposium is to provide a multidiscipline conference for engineers and scientists in the fields of microwave, antenna, propagation, and EMC technologies to focus on applications in the ever-growing area of wireless communications. The topics of the symposium will cover all of the interesting theory and techniques of microwaves, antennas, propagation, and EMC necessary for wireless communications.

TOPICS OF INTEREST

- Systems and Services
- Microwave Electronics
- Antennas
- Propagation
- Electromagnetics
- Signal Processing, Coding, or Wave forms
- EMC and Related Topics
- Micro-Electronic Devices, Circuits, and Systems for Wireless Applications
- Remote Sensing

Paper Submission

The proceedings of the conference will be copy-righted by IEEE Press and Library of Congress of USA with their catalog numbers and indexing. The accepted/published papers will be indexed by EI and ISTP.

You can submit your paper(s) by two ways: E-mail and Website.

Please submit your preliminary full paper manuscripts electronically according to the instructions on the Web site before May 31, 2011, to:

Prof. Yinghong Wen, Beijing Jiaotong University, China

E-mail: mape_china@sina.cn

Important Dates

Submission deadline:

Notification of acceptance:

Final full paper deadline:

~~May 31,2011~~ June 30,2011

July 31,2011

August 15,2011
